DATA GOVERNANCE

Move forward with AI. Keep control of your data.

Give a useful business idea a workable foundation: agreed sources, clear ownership, appropriate access, and a practical route to support.

Illustrative catering image

100%
of in-scope data sources with a named owner

50%
less time preparing a data access review

1 view
of connection status, ownership, and refresh information

A clear route from source to decision.

Start with one permitted use. Agree the sources and responsibilities, test what happens when information is incomplete, and keep review points explicit.

Agree the purpose
Define one useful decision and the approved sources.

→

Control access
Agree permissions, ownership, and processing requirements.

→

Check the evidence
Inspect quality, refresh, gaps, and failure handling.

→

Review the action
Set human review and any permitted write-back boundaries.

Start with a free 40-minute Confidence Review

Bring one question. Agree a useful next step.
